It is a piece of ground, and even that is questionable. It may be reduced to \$600, the price to be purchased as a substitute for the land. This \$600 would be a great cost in attaching and altering what would be the cost of erecting a building from the foundation.

A person who has been visiting the Ward Schools, or the girls they would not be able to say that the children are neglected in their education. This can be remedied then to the Primary School in the Central building.

M. D. WARD,
Surgical and Mechanical Dentist,

Not making for removal of that patronage with which he has been honored by the inhabitants of the County of Hastings for the last ten and a-half years, and cordially thanking them for it, would respectfully observe that, as far as the profession is concerned, without the change of getting being substantially preferred against him, his business has not been so far proved to this and other parts of the County, as to induce him to leave his business; his efforts have been invariably crowned with complete success. He is true that his patients are not so numerous as in the world; and, as far as our own good Town is concerned, we have our share.

he has always put faith in the golden rule, "live and let live," and, believing in that doctrine, he has never been able to see that he was the cause of the ruin of others. He was the first to refuse to be known as the "RUBBER BAR," and to place it within the reach of all. Had Mr. Wernick been a Jew, he would have allowed the Dentist to be called in this respect, to remain as heretofore. However, showing respect by example, he boldly refused to do this, and the result has been that the practice has been increased, and he has him to have the proud satisfaction of knowing that he has his full share of the patronage and confidence of the County of Hastings.

Mr. Wernick has been a great improvement to the County of Hastings, and has endeavored to enable him to accommodate his patients by extracting of teeth, such as Nitrochloride Elixir Spray, Chloroform, etc., which he is now endeavoring to administer to his patients with complete success.

Mr. Ward has lately added improvements in his Dental Chair, so as to conduce to the comfort of his patients, and would respectfully ask from his numerous patrons, a renewal of that confidence with which they have hitherto honored him, assuring them that on his part nothing will be done to forfeit it.
